

Factory Drilled Pilot Holes Available

Drilling pilot holes at a job-site can often delay the installation time of doors. In response to this concern, Marshfield DoorSystems, Inc. presents the option of factory drilled pilot holes. This service is available for all doors requiring standard hinges.

Ordering doors with factory drilled pilot holes expedites the time required to install the doors on the job-site. In addition, factory drilled pilot holes guarantee that the pilot holes are drilled consistently and accurately on every door.

Please contact your sales and service representative to learn more about this great service.
